PARTICULARS of ESTATES, PROPERTY, and FUNDS.

THE only perſonal property veſted in the Governors, are two Bonds of the late Sir Henry Hartſtonge, bart., one for £. 300, and the other for £. 100, the Intereſt of which is regularly paid and accounted for annually by the Treaſurer. In addition to this, the only certain and permanent Income of the Hoſpital is the ſum of £. 97 a year, payable by his Majeſty's Treaſury purſuant to Act of Parliament.

The Income ariſing from Subſcriptions, Donations, and Grand Jury Preſentments, as alſo from the admiſſion of Patients (ſome of whom are by a by-rule of the Hoſpital required to pay half a guinea on admiſſion) is variable and uncertain;—the particulars and amount of it for the preſent year are ſet forth in the foregoing Account

There is no landed or leaſehold property whatever belonging to this Hoſpital, except the ſcite whereon it ſtands, and a yard in front of it between it and the ſtreet; theſe were formerly a part of the Fortifications of the City of Limerick, were more lately uſed as a Barrack, and were procured from the Ordnance Board by the late Sir Henry and Lady Hartſtonge, for the purpoſe to which it is now converted. By their exertions a ſubſcription was made for the building of the Houſe, and to them is due the credit of having eſtabliſhed the firſt Fever Hoſpital in His Majeſty's dominions, an Inſtitution the utility of which has been amply experienced in the City where it is ſituated.

PARTICULARS OF ESTATES, PROPERTY, AND FUNDS.

The only perſonal property veſted in the Governors, are two Bonds of the late Sir Henry Hartſtonge, bart., one for £.300 and the other for £.100, the Intereſt of which is regularly paid and accounted for annually by the Treaſurer. In addition to this, the only certain and permanent Income of the Hoſpital is the ſum of £.97 a year, payable by His Majeſty's Treaſury purſuant to Act of Parliament.

The Income ariſing from Subſcriptions, Donations, and Grand Jury Preſentments, as alſo for the admiſſion of Patients (ſome of whom are by a by-rule of the Hoſpital required to pay half a guinea on admiſſion) is variable and uncertain;—the particulars and amount of the preſent year are ſet forth in the foregoing Account.

There is no land or leaſehold property whatever belonging to this Hoſpital, except the ſcite whereon it ſtands, and a yard in front of it between it and the ſtreet; theſe were formerly part of the Fortifications of the City of Limerick, were more lately uſed as a Barrack, and were procured from the Ordnance Board by the late Sir Henry and Lady Hartſtonge, for the purpoſe to which it is now converted. By their exertions a Subſcription was made for the building of the Houſe, and to them is due the credit of having eſtabliſhed the firſt Fever Hoſpital in His Majeſty's dominions, an Inſtitution the utility of which has been amply experienced in the City where it is ſituated.

THIS ACCOUNT, as amended, is juſt and true, and ſupported by the Evidence on oath of the Superintendent Magiſtrate.

It is to be obſerved that in this account the Public is credited with a much larger ſum under the head of Fines impoſed, than at any former period, in conſequence of the ſuggeſtions of this Board in their two laſt Reports.

The Superintendent Magiſtrate was however unable to furniſh an accurate ſtatement of all Fines levied, and the appropriation of the whole or parts thereof (according to law) to the different officers of the Eſtabliſhment, ſo as to exhibit the full amount of the Emoluments received by the ſaid officers, he had been obliged to give up all Books and Papers belonging to his office to the new Police Eſtabliſhment

The true Balance in favour of the Public then is £.				27,837	—	6½

We have examined Mr. Corry, the Secretary to the Truſtees, who ſwears that this Account was made up under his own direction; that all the ſums charged were paid within period; and that to the beſt of his belief and knowledge it is juſt and true.

Mr. Duffin, Inſpector General, &c. &c. has alſo been examined, and ſwears that all monies granted for menſals have been faithfully paid by him to the different workmen who made the ſame.

Mr. Parke, the Architect, has been ſworn to his Accounts, and ſays they are juſt and true.

From this examination, and that of the Account and vouchers belonging to it, we have to obſerve that the Charge part does not exhibit, as we think it ſhould do, the whole annual funds of the Truſtees, there being an appropriated duty on linſeed oil, chocolate, cocoa nuts, and foreign linens, which has not been claimed this year, and which the Truſtees do not regularly apply for.

In the Diſcharge, the inattention of the Truſtees to their money concerns, formerly noted, is ſtill obſervable; large ſums of money are impreſted to the architect, under the head of Repairs and New Buildings, which are carried on by order of three Truſtees, the expences thereof being unchecked by any Building Committee, or any other examination than that of a Truſtee, who looks over and compares the ſums compriſing the general annual account, and upon whoſe report it is ſigned by five Truſtees. By this ſummary and inſufficient examination the Truſtees are in fact ignorant of the different items of the Architect's Expenditure, particularly under the head of Furniture and Repairs of Officers Houſes, in which he ſeems to have had an uncontrolled diſcretion; this has appeared to us from ſome items in his Accounts which ſhould properly have been charged to individuals, and which, though trifling in the amount, could not have been ſuffered to remain part thereof, had the Account been examined with ſufficient care by the Truſtees who ſigned it.

The true Balance in favour of the Public then is			£.	14,070	8	1½

THIS ACCOUNT, as above amended, is properly stated, and sufficiently vouched. The Balances in hands of the Corporation are employing in discharge of their Certificates, the nature of which debt we have before observed upon.

We have added to the Balance the amount of Insupers which we had laid upon former Accounts, as being in our opinion improper expenditures, or errors, but which the Commissioners of Wide Streets have, of their own authority, taken upon themselves to discharge in their Account, and we must observe, that if Accountants shall be permitted to assume this power, or even to continue the Insupers or Disallowances made by this Board as Items in their Balance merely, without any effort to procure repayment of them to the public, all the exertions of this Board are of no avail, and the several Accountants may wilfully perpetuate errors in their Accounts, or persevere in the misapplication of money to the manifest prejudice of the public, and in defiance of the control intended by the Legislature.

THIS ACCOUNT, as above amended, is a fair and correct Account, and is ſupported by Vouchers, and by the Depoſitions of a Commiſſioner, the Secretary, and Accountant, who declared it to be a juſt and true Account.

It muſt be obſerved, that the Balance, as ſtruck by this Board in the laſt Account of the temporary Commiſſioners for Paving, &c. was the ſum of ſix thouſand two hundred and fifty-four pounds eighteen ſhillings and ten pence halfpenny, but that the Balance taken up and acknowledged by the preſent Commiſſioners, in the Account now before us, is only four thouſand one hundred and forty-two pounds fifteen ſhillings and one penny, being the actual caſh out of the above ſum of ſix thouſand two hundred and fifty-four pounds eighteen ſhillings and ten pence halfpenny, which was handed over from the laſt temporary Commiſſioners to the preſent Board; this leaves a ſum of two thouſand one hundred and twelve pounds three ſhillings and nine pence halfpenny, to be accounted for yet, as chargeable againſt the temporary Commiſſioners. On the Officers of the preſent Board being called upon to explain why they did not receive this ſum, they ſtated, that upon an examination of Mr. Green, the late Accountant, upon oath, before the Commiſſioners of Inquiry, and which Papers are now before the Houſe of Commons, it appeared from Mr. Green's depoſitions that the differences between the Caſh or Treaſurer's Balances, and thoſe as ſtruck by the Commiſſioners of Accounts, aroſe from a number of Inſupers or Diſallowances made upon the ſeveral prior Accounts, by the Commiſſioners of Impreſt, and alſo from a number of Errors which had crept into the Accounts of the former Commiſſioners and Directors of Paving, from time to time, before they were laid before the Commiſſioners of Accounts, particularly in a ſum of one thouſand eight hundred and ſixty-four pounds five ſhillings and eight pence, being ſo much of Paving and Lighting Taxes, which the Corporation overcharged themſelves with in their Account ending 24th June 1792, they having before charged themſelves with this ſame ſum, in their Account laid before the Impreſt Board, for the year ending 24th June 1791, and which error againſt the Corporation was not diſcovered till lately.

Thus it appears that this difference between the Balance of the laſt Account, as ſtruck by the Commiſſioners of Accounts, and the ſum given credit for by the preſent Commiſſioners of Paving, is not a Caſh Balance that could have been handed over from the temporary Commiſſioners to the preſent Board, but is a Balance ariſing from Inſupers or Diſallowances made by the Commiſſioners of

Accounts, and not repaid by Accountants, and of Errors in the Accounts, as furnished by the late Directors and Commissioners of Paving in their several Accounts from time to time, and laid before the Commissioners of Accounts, which the Commissioners of Accounts had no means of detecting, and which were growing and continued from the commencement of the Paving Board to the commencement of the present Accounts.

These Accounts are for a broken period, from the day of the first appointment of the present Board, on the abolition of the temporary Commissioners on the 22d August 1807, to the fifth January 1808, the proper period to which all Accounts are to be made up; and here we beg to refer to our Report on the Account of the Commissioners of Wide Streets, and further to urge the necessity of obliging Accountants to refund the amount of Insupers made on their Accounts by this Board, the practice at present prevailing tending most manifestly, as in the instance now before us, to creating false and fictitious Balances.
